Accelerator Proposal

How do you anticipate the Accelerator Grant will advance your body of work, creative project, and/or career?

300 words

This section should be at least a paragraph (4 full sentences minimum). Talk about how this project or category of support will elevate you to the next level of your career, project, or work. What are you asking for funding for? What is currently stopping you from advancing? How will receiving this funding help your artistic practice? Be specific. Explain why it is important, as if the panel does not understand your artistic practice. This is one of the sections the panel is using to look at your capacity to complete the work over the four months you have to report on the funding and your intent to advance your career with the funding.

Describe how your work will impact your community.

300 words

Think about the audience that will be viewing, or participating in your work. What do you anticipate the positive impact will be on them? Be as specific as possible. (Who is your audience? How will they have an opportunity to participate in your work? How do you think this experience will positively impact them or what is the hope for a positive impact?) This is one of the categories that the panel is scoring on. Even if the impact does not seem large, put it in this section. The panel wants to see that you considered the impact of your work on your audience and community. An example of a way to start a response is My work will impact my (or X) community by...

Provide an itemized list of associated costs pertaining to your requested funding.

List the costs in priority order of need, with a short description of how each item is relevant to your practice. Please do not make up the numbers. Do the research on how much the items for which you are requesting support will cost. Be specific. The research could include providing quotes from vendors or similar information. This grant is not a reimbursement. Original receipts will be required as proof that payments and purchases took place after funds were awarded.

What is the total amount of funding you are requesting (not to exceed \$1500.00)?

Count up the total amount of the budget and put it in this section. Do not just put the max, unless you justified it in the budget.

If you are only granted a portion of the funding you have requested, will you still be able to make progress towards your creative project or goal?

Yes

No

The panel uses this section to decide if someone will get funding. I.e. Ann selects that they can not get partial funding. The panel wants to give her funds, but only has \$1000 left to fund an artist. They would select another who asks for a lesser amount or said that they can accept partial funding. If you feel like you need full funding to complete a project, do not select yes.

What category does your request for funding fit under?
(please check all that apply.)

Equipment

Project Support

Supplies

Professional Development

Please only select the ones that apply to your funding request.

If there is a set date this funding is needed by, please note below. (optional)

Is your project time sensitive? How soon will you need the funding to be able to complete the project, event, or opportunity, if applicable?

What is the anticipated date for your creative project/activity being complete?

Accelerator Support Materials

Provide a short artist bio or a narrative describing the history of your artistic practice.

300 words

A bio is an introduction to you as an artist and your work. Your bio is often what will get reproduced in public statements, press releases, and similar promotions. In one paragraph, what do you want the world to know about you as an artist? A bio should be written in third person. (i.e. Smith is a local ceramicist with 5 years of experience... She creates...).
